AT 9.0+ FLOOR 1 of 11 areas verified excellent: Truth

AUTHORITATIVE Learning 5.0 (about halfway there)

1 · Scorecard

Scores move on evidence, never optimism. **AUTH** means checked by someone else; **claim** means our own assessment so far.

Team	Area	Score	Status	Δ
Learning	Learning	5.0	AUTH	—
Proving/ Verifying	Truth	9.0	CLAIM	—

Team	Area	Score	Status	Δ
Brain/ Memory	Memory & Continuity	8.5	CLAIM	—
Interfaces/ Hub	Human Value	7.5	CLAIM	—
Architecture/ Engineering/ Ops	Retrieval	7.0	CLAIM	—
Architecture/ Engineering/ Ops	Action & Execution	8.8	CLAIM	—
Law/ Governance	Authority & Governance	8.0	CLAIM	—
Law/ Governance	Safety	8.0	CLAIM	—
Interfaces/ Hub	Voice & Experience	8.5	CLAIM	—
Architecture/ Engineering/ Ops	Production Readiness	3.0	CLAIM	—
Evolution/ Succession	Successor Reuse	4.5	CLAIM	—

2 · What got done — by team

Team 1: Learning

The Learning team had a strong period — 10 things got done, nothing blocked, strongest area: Learning (about halfway there).

5.0 Learning · AUTH · Δ—

- Learning: about halfway there (5.0 out of 10, independently checked).

Done this period

Four being considered items are live in learning evidence ready for the moving up loop: T11 Reserve Rule, T12 Compositional,...

Learning-loop-watch shift complete. Signed in/out on.

Naya 1 created the NayaPOWER 24x7 Intelligence Factory orchestration (9 specialized seats — Control Tower, Protocol Engineer, Engineering Builder, Independent Verifier, Learning Architect,...

The building on itself-proof set on is complete (2026-10-08): T13 proved cross-domain transfer — a lesson learned in call dispatch applied to ICU triage without retraining (+7.06 benefit per stream, 66%...

On 2026-10-08 the hourly report generator was fixed after it had read worker logs' "7.0 Provisional" as the authoritative whole-area Learning score: Learning was pinned at 5.0 authoritative so...

Plan to 10

checked by someone else → re-score toward 10.

Team 2: Brain/Memory

The Brain/Memory team had a strong period — 1 thing got done, nothing blocked, strongest area: Memory & Continuity (good progress, still improving).

8.5 Memory & Continuity · claim · Δ —

- Memory & Continuity: good progress, still improving (8.5 out of 10, our own assessment so far).

Done this period

Naya 2 filed Smart Note SN-0526 "Quality Before Speed — The 9+ Delivery Law" (filed 2026-10-08 at, posted to...

3 · Decisions needed

Only items genuinely needing a human call appear here — everything else lives in its team section above.

1 · [Cross-team] Supabase connector connection problem twice on read-only queries this shift (login temporary credential issue — credentials gate, not mine to fix). Build unaffected (evaluator needs no DB).

Our suggestion: pick the option that helps the most; only bring it to Shawn if it's something only he can approve.

4 · Single priority for next period

◆ **[Cross-team]** Supabase connector connection...

Cross-team signals

Needs attention

Supabase connector connection problem twice on read-only queries this shift (login temporary credential issue — credentials gate, not mine to fix). Build unaffected (evaluator needs no DB).

database tool → connection problem "Invalid API key" from this machine (already flagged for connector owner 02:40 run) — could not re-read live nayanet brain relationships to confirm exact item state;

Achievements

Shawn published a formal Team Naya Top 10 Priorities list (2026-10-08) with standing queue discipline: 'top 10 priorities right now.'

Naya 1 independently verified fix at Tier S from raw evidence, reporting $p \approx 1.08e-5$, Cohen's $h \approx 3.142$, and matching corpus hashes.

Naya 1 reported the first genuine live Smart Note capture chain through Real Note → Capture → Persist → Verified Receipt → HUB, with four artifacts and Hub flags confirming feed update, Smart Note creation...
