Achievements

Shawn published a formal Team Naya TOP 10 PRIORITIES list (2026-10-08) with standing queue discipline: 'top 10 priorities right now. Nothing else jumps the line.' New items: (1) PR #1229 to unblock 549 Smart Notes — fail... [memory:2026-10-08]

Naya 1 independently verified PR #1768 at Tier S from raw evidence, reporting $p \approx 1.08e-5$, Cohen's $h \approx 3.142$, and matching corpus hashes. [memory:2026-10-08]

Naya 1 reported the first genuine live Smart Note capture chain through ****REAL NOTE → CAPTURE → PERSIST → VERIFIED RECEIPT → HUB****, with four artifacts and Hub flags confirming feed update, Smart Note creation, and Intel... [memory:2026-10-08]

Window: since 2026-10-08 19:12 UTC. Generated 2026-10-08 20:12 UTC.
Evidence basis: worker run logs, daily memory log, GitHub (#1354 + PRs), Supabase learning_evidence (read-only). All items carry their source. Scores labeled claim vs AUTH; a claim becomes authoritative only on independent verification. Demo or simulated content is labeled as such; counts come from real outcomes or do not appear.
